- ⌚ **Compact design**

Beautiful on the outside, the best technology inside

Quench 154. The Quench 154 is a high-capacity thermal coffee brewer with stainless steel carafe that holds 84.5 oz. of hot, fresh coffee for up to 6 hours. Its state-of-the-art digital system and pulse brewing technology ensures brewing only starts when the water has reached optimal brewing temperature producing a more flavorful cup of coffee. The Quench 154's innovative AFS Sprayhead perfectly saturates the coffee grounds to extract the richest, fullest flavor from every type of coffee. The Quench 154 also dispenses hot water for tea, hot chocolate, or soup – even during the brew cycle!
