- ◆ Hot water dispensing

Beautiful on the outside, the best technology inside

Quench 166. The Quench 166 is a single-cup brewer that uses environmentally-friendly, 100% biodegradable pods. It enables users to brew a 6 oz. or 10 oz. cup of coffee or tea, in the flavor and strength of their choice. The Quench 166 is simple to use with push-button dispensing, digital display, and an auto-eject mechanism for easy pod disposal.
