

Quench 950: Free-Standing Water and Ice Dispenser

- ◆ Sleek, contemporary design
- ◆ Cold, hot and room temperature water
- ◆ Typically serves up to 30 users
- ◆ Touch-sensor dispensing
- ◆ Hot water safety lock
- ◆ Reverse osmosis filtration
- ◆ Prevents up to 180 plastic jugs from entering landfills each year

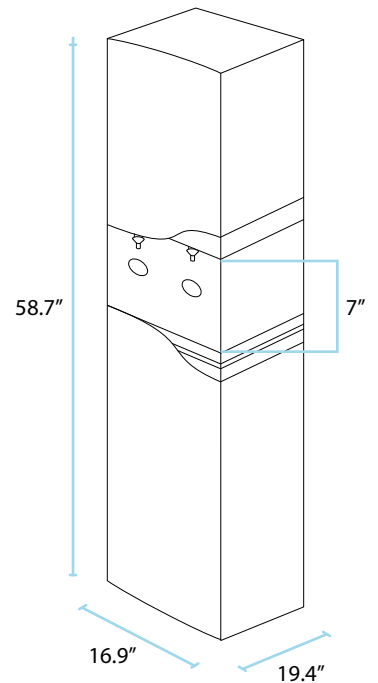

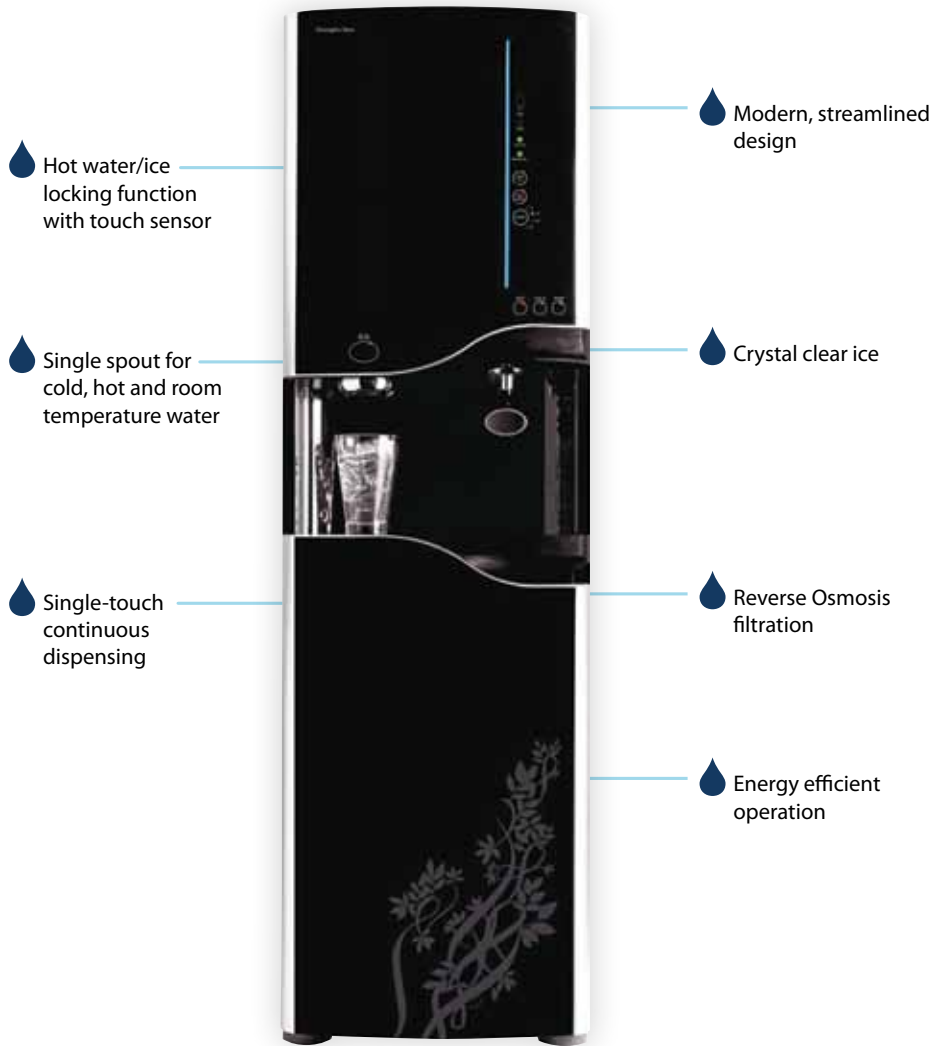

Beautiful on the outside, the best technology inside

Quench 950. Cold water, room temperature water, hot water *and* ice, all from one very modern machine. The Quench 950 features crystal clear ice and a unique recessed single spout design, as well as touch-sensor dispensing. Its great looking black-and-stainless-steel design is perfect for a breakroom.

A GREEN APPROACH

The Quench 950 prevents up to 180 5-gallon plastic jugs from entering landfills each year.
