

Designed with the user in mind

Quench Q7

FREESTANDING AND COUNTERTOP SERIES

- Enjoy the contemporary styling and ergonomic height of this large-capacity water cooler
- Experience a dynamic electronic user interface with touch-sensor dispensing
- Trust our advanced filtration to remove contaminants and LED UV to maintain quality

Quench Q7

The Q7 series has all the style and features to meet the needs of the modern workplace. The large chilled water capacity provides uninterrupted refreshment throughout the day and has plenty of hot water, too. Any concerns of cross-contamination are addressed by the touch sensor dispensing and antimicrobial surface protection. Both the tall freestanding and countertop models make for comfortable user access.

Designed with the user in mind

- Advanced carbon filtration with lead reduction or RO filtration
- LED ultraviolet light to maintain water quality
- Touch sensor dispensing and hot water safety feature
- Taller freestanding model with comfortable dispense height
- Countertop model fits nicely under cabinets
- Easy bottle filling in freestanding model
- Large capacity cold water tanks
- Antimicrobial surface protection
